

# Risk Assessment Information System (RAIS)

Contact: C.W. McGinn, mcginncw@ornl.gov, 865.576.2734

Sponsor: DOE EM

- **Objective:** Provide a service-oriented environmental risk assessment expert system.
- **Conclusion:** Reduces cost of remediation activities and provides a platform for standardizing basic environmental cleanup techniques.
- System provides tools essential for performing basic risk assessment activities, such as preliminary remediation goals, toxicity values and profiles, Federal and State guidelines, human health risk models, and ecological benchmarks.
