

24th Symposium on Biotechnology for Fuels and Chemicals

April 28 – May 1, 2002

Gatlinburg, Tennessee

The symposium was successful, with continuing positive feedback. Numerous contacts and collaborations resulted for the representatives from both industry and academia.

- 290 registrants, 50% more than in 2000
 - 30% industrial attendees
 - 30% international attendees
 - 24% student attendees
- >50 oral presentations
- >180 poster presentations
- 22 sponsoring institutions

24th SYMPOSIUM
ON BIOTECHNOLOGY
FOR FUELS AND CHEMICALS

PARK VISTA HOTEL
GATLINBURG, TENNESSEE
April 29 – May 1, 2002

Topics

- Foodstarch Production, Genetic Modification, and Processing
- Microbial Catalysts and Metabolic Engineering
- Bioprocessing Research
- Genities and Changes in Bioprocess and Bioprocesses
- Development of Industrial Bioprocesses
- Enzymatic Production and Conversions
- Downstream Processing of Bioproducts

Special Topics:

- Educational Needs for a Biotech-Energy
- International Energy Agency Bioenergy Program on Bioethers

SPONSORS

- U.S. Department of Energy Office of Fluids Development
- U.S. Department of Energy Office of Industrial Technologies -- Agriculture Industry
- Oak Ridge National Laboratory
- National Renewable Energy Laboratory
- Argonne National Laboratory
- BBI International
- Cargill, Inc.
- Cargill DEX LLC
- CITA -- University of California, Davis
- Corn Refiners Association, Inc.
- Diversa
- E. I. DuPont de Nemours & Co., Inc.
- Idaho National Engineering and Environmental Laboratory
- Ingevit Corporation
- Kollon International, Inc.
- National Renewable Energy Laboratory
- Novozymes A/S
- Pacific Northwest National Laboratory
- Tate and Lyle PLC
- TEMPOC, Inc.
- Tennessee Valley Authority Public Power Institute
- USDA, Agricultural Research Service
